

Owl for Exchange

Owl for Exchange on Mozilla Thunderbird e-posti kliendi lisa, mis võimaldab Maaülikooli e-posti kasutamist. Antud juhend õpetab seda samm-sammult paigaldama ja seadistama.

1) Owl'i leidmine ja lisamine

Esmalt tuleb avada Lisade menüü (vajutada kolmele joonele ning „Add-ons“ või „Lisad“).

Seejärel sisestad otsinguribale „Owl“.

Peale seda avaneb uus vahekaart, kus kuvatakse ainus vaste antud otsingule.

Owl for Exchange

Allows you to use your Exchange email accounts that use Outlook Web Access (OWA) with Thunderbird

★★★★☆ (52) 32,751 users

+ Add to
Thunderbird

Seejärel tuleb vajutada nupule „Add to Thunderbird“, misjärel küsitakse veel viimane kinnitus enne paigaldamist (tuleb vajutada nupule „Add“) ning eduka paigalduse teavitust.

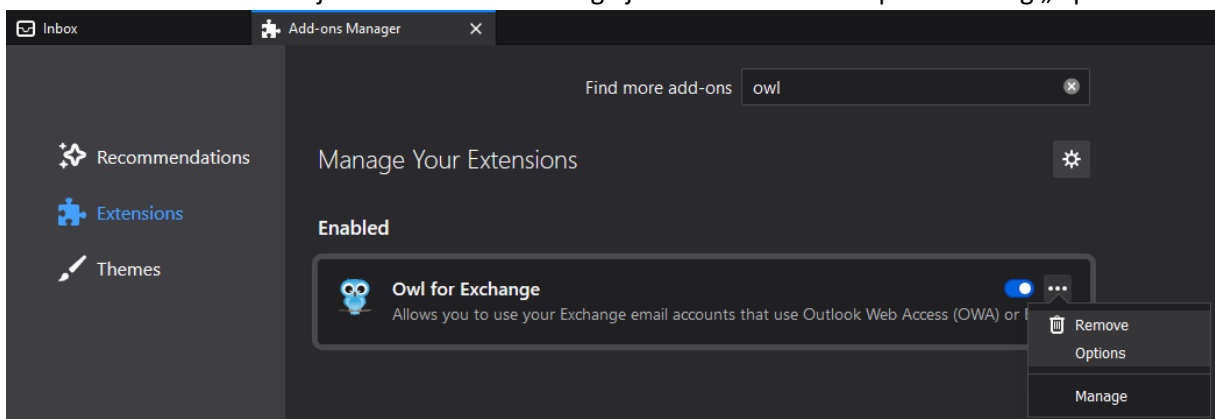

2) Owl'i seadistamine

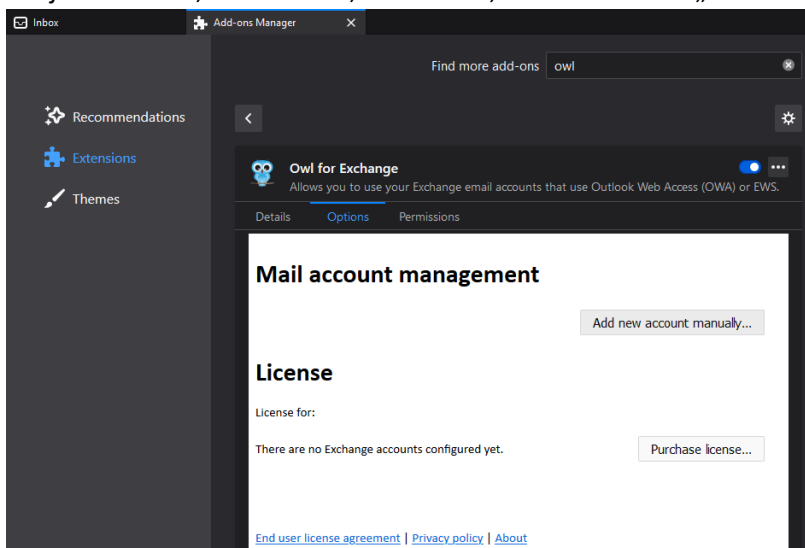

Eduka paigalduse järel tuleb sulgeda Thunderbird'i lisade kataloogi vahekaart ning asuda seadistama EMÜ e-posti kontot.

Seadistama saab asuda vajutades Owl for Exchange järel olevale kolmele punktile ning „Options“.

Seejärel avaneb, lisa nime all, väike aken, kus tuleb valida „Add new account manually...“.

Uuel avanenud vahekaardil tuleb sisestada EMÜ kasutajatunnus, parool ja <https://outlook.office.com/owa/> aadress ning seejärel vajutada nupule „Create account“.

Add new Exchange account

Protocol:

Login method:

Please log in to your webmail using your browser, and then copy and paste the page location (URL) here. This is the location after login, not before login.

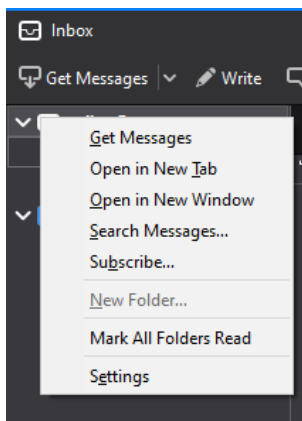

Webmail page:

Pärast edukat konto seadistamist tuleb sulgeda „Lisade“ vahekaart.

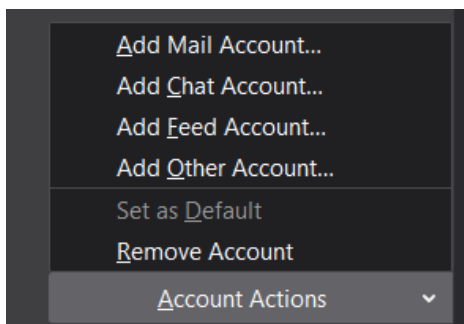

3) Olemasoleva konto eemaldamine

Juhul kui Thunderbird's oli varasemalt lisatud ja kasutuses olnud EMÜ konto, tuleb see eemaldada.

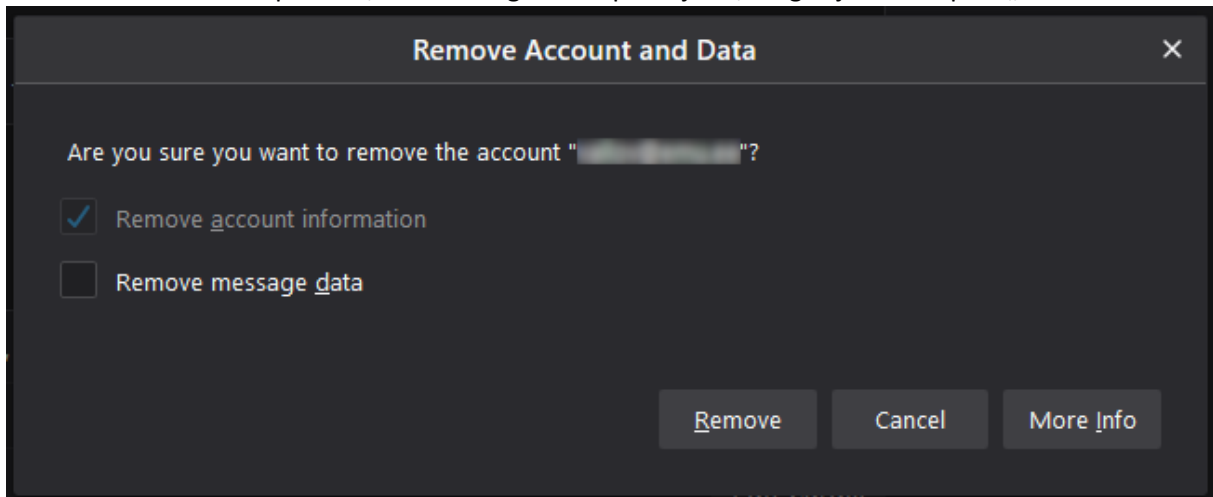

Selleks tuleb Thunderbird'i avalehel olles teha parem klõps oma vanal kontol ning valida „Settings“.

Uuel avanenud vahekaardil tuleb vasakult alt nurgast valida „Account Actions“ ning „Remove Account“.

Pärast seda avaneb hüpikaken, kus võib algalikud paika jätta, ning vajutada nupule „Remove“.

Eduka eemaldamise korral kuvatakse seda kinnitav teavitus.
